

Safeguarding Children and Young People Licensing Standards

Version 3, January 2024

Context

At the Y, we are committed to empowering all Children and Young People to feel safe and be safe, at the Y, in their families and in their communities. As such, we embed Safeguarding into everything that we do to make sure Children and Young People are kept at the front of our minds in all of our programs and services.

The following Safeguarding Children and Young People Licensing Standards ("the Standards") provide in depth detail regarding the minimum requirements of all Member Ys to manage risk to Children and Young People in order to sustain eligibility to hold a YMCA License.

The Standards have been co-designed with representatives of the collective Y Movement in Australia and are informed by insight into the

unique operational and legislative environments of all Member Ys throughout the country, as well as national and international best practice in this field.

The Standards are also informed by the Y's Safeguarding Framework and Policy and are grouped under the three Safeguarding Pillars of Culture, Operations and Environment.

“At the Y, we commit to being leaders in Safeguarding Children and Young People. These Standards provide a benchmark for the Y’s collective approach to keeping Children and Young People safe in the Y, in their families and in their communities.”

Ben Hubbard
President, Y Australia

“Safeguarding children and young people remains core to who we are and what we do at the Y. Our Safeguarding Standards enable us, across our 13 member associations and 650 communities, to embed this critical priority in all areas of our work.”

Tal Karp
CEO, Y Australia

“Y Safeguarding looks forward to working with our Member Ys to ensure the safety and wellbeing of all Children and Young People. Reach out to Y Safeguarding if you’d like any further information or support.”

Amy Hill
Executive Director, Y Safeguarding

Implementation Date

The “Implementation Date” listed to the right of each Standard is the date the Standard is in effect.

From this date, all Member Ys must ensure compliance with the Standard unless a short term exemption – with suitable alternative actions to address the risk to Children and Young People- has been approved by Y Australia.
